

ICAM 2022 - FIRST INTERNATIONAL CONFERENCE OF AEROSPACE MEDICINE SCIENTIFIC PROGRAMME

During these three days of equal scientific quality, there are very few conflicts in oral sessions of each category, and so attendees who are interested in one particular category will have the opportunity to attend all sessions of this category.

Additionally, a total of 80 posters are expected to complete or extend the oral presentations of each day of the meeting.

GENERAL ORGANIZATION

		THURSDAY 22 September 2022		
ROOM		MORNING	lunch time	AFTERNOON
Gaston Berger 900 seats		9h - 9h30 General & Official welcome 9h30 - 10h15 Allard lecture : Luc Tytgat (EASA) 10h45 - 12h15 Ernsting panel Next pandemic preparation using COVID-19 top lessons learned		Session 1 14h - 15h30 NATO WGAC : Why screen for heart disease? An international panel on non-invasive methods of screening for cardiovascular disease in aircrew Session 2 16h - 17h30 Pilot Peer Support Programmes: experiences and opportunities Extra-session 17h45 - 19h EASA course Regulatory updates
Louis Armand East 210 seats	not used		Symposium MEDAIRE 12h30 - 13h30	Session 1 14h - 15h30 Space medicine (4) : Aeromedical concerns for an extreme environment Session 2 16h - 17h30 Sleep, sleep disorders and aircrew
Louis Armand West 210 seats	not used			Session 1 14h - 15h30 Hypoxia & hypobarica Session 2 16h - 17h30 Human performance & aircrew

Welcome

19h

FRIDAY 23 September 2022

ROOM	MORNING	lunch time	AFTERNOON
Gaston Berger 900 seats	Session 1 8h30 - 10h Safety considerations of reduced crew operations Session 2 10h30 - 12h Human factors, safety and accidents in aviation		Session 1 14h - 15h30 Space medicine (5) : Space tourism aspects Session 2 16h - 17h30 Space medicine (6) sponsored by ESA & NASA: "Exploration medicine panel abstract" Extra-session 17h45 - 18h45 Thomas Pesquet's session
Louis Armand East 210 seats	Session 1 8h30 - 10h Mental health and addictions in aircrew Session 2 10h30 - 12h Space medicine (2) : Long duration space travel and operations	IAASM GA 12h - 14h	Session 1 14h - 15h30 Insulin and aircrew Session 2 16h - 17h30 Advances in Cardiovascular Management: Implications on Aeromedical Decision Making
Louis Armand West 210 seats	Session 1 8h30 - 10h Clinical aviation medicine : Cardiovascular concerns FR session Session 2 10h30 - 12h Clinical aviation & travel medicine FR session	CoE meeting (option)	Session 1 14h - 15h30 Clinical aviation medicine : Ophthalmology FR session Session 2 16h - 17h30 Clinical aviation medicine : From ENT to neuropsychology FR session
			CoE meeting 17h30 - 19h
			Academics' dinner 20h

SATURDAY 24 September 2022

ROOM

Gaston Berger

900 seats

MORNING

lunch time

AFTERNOON

Session 1
8h30 - 10h

Clinical aviation medicine : From current to particular situations

Session 2
10h30 - 12h

Fatigue and vigilance in aircrew

Session 1
14h - 15h30

Mental load and health: experimental psychology

Session 2
16h - 17h30

Clinical aviation medicine : From screening to assessment

ROOM

Louis Armand East

210 seats

Session 1
8h30 - 10h

AEROMEDEVAC and infectious/Covid diseases

Session 2
10h30 - 12h

Space medicine (3) : From the beginning to nowadays

**ESAM
GA
12h - 14h**

Session 1
14h - 15h30

Space medicine (1) : Clinical considerations

Session 2
16h - 17h30

AEROMEDEVAC and operational considerations

ROOM

Louis Armand West

210 seats

Session 1
8h30 - 10h

Accelerations and ejections

Session 2
10h30 - 12h30

Refresher course

Session 1
14h - 15h30

Infectious diseases and aircrew

Session 2
16h - 17h30

Occupational and travel medicine in aviation

Gala dinner

20h
